Brno Underground - Labyrinth Under the Vegetable Market

Labyrinth (Zelný trh 21)

As a part of the tourist route, visitors will see unique and mysterious corners of mediaeval corridors and cellars hidden six to eight metres under ground. They will learn how food, wine and beer were preserved in the past and what illuminated the underground space. The exhibition also includes a collection of archeological findings. Part of the tour is an alchemist's laboratory commemorating famous doctors, pharmacists and physicists who worked in Brno and made the city popular throughout Europe. The shady sides of life in ancient times are told by replicas of the city pillory and the madman's cages that stood in the marketplace in the 17th century.

How can we visit the Labyrinth?

It is not wheelchair accessible due to stairs.

Tours are every half an hour (9:30, 10:00, 10:30...to 17:30)

Brno Underground - Ossuary at st.Jacob

Ossuary (Jacob's Square/Jakubské náměstí)

The second biggest ossuary in Europe. The number of buried people here is estimated at more than fifty thousand. The cemetery at the Church of St. Jacob on today's Jacob's Square existed as early as the beginning of the 13th century. Just like other city cemeteries, it was founded inside the walls which prevented its later expansion. The capacity was soon no longer sufficient for the needs of the growing city and a system of interchangeable burials had to be introduced: ten to twelve years after the burial, the grave was opened, the remains were removed and another deceased was placed there

How to visit the Ossuary?

It is not wheelchair accessible due to stairs.

Tours are every half an hour (9:30, 10:00, 10:30...to 17:30)
